

Kealaho'imai

A Path of Returning to Health and Wellness

Apply today for Ho'i, the new accelerated career pathways program leading to in-demand, high-wage, high-skill occupations in the healthcare and wellness industry.

Ke ala ho'i mai, translated as a path of returning (ho'i) to health and wellness, will seek to create systemic change to better serve the Native Hawaiian community through rigorous competency-based trainings, work-based learning experiences, and wrap-around individual and family support services including financial literacy training, academic advising, career and workforce navigation, and access to health and wellness services.

The program will offer four health and wellness pathways leading to entry-level noncredit certifications, credentials and innovative work-based learning opportunities for Native Hawaiian students. Jump start your access to high-demand career pathways with potential for increased lifetime earnings, professional development, and continuing education!

To apply for 100% tuition award for the Ho'i program*, contact
